IMPLEMENTs, HARNESS.

A Chance For ALL !

There are still residents in this locality who do not take the "Chronicle." We are anxious to get them on our subscription List. Now is your chance to help. Every New Subscriber paying two year's subscriptions \$2.00, will receive a copy of

"The Veterinarian"
Published at \$2.50

And the Chronicle for two years from date of payment.

Any old Subscriber bringing in Subscription for the next twelve months and a New Subscription for a friend will receive a

Free Copy of "The Veterinarian,"
and the Chronicle for a year.

Any old Subscriber who has paid up for 1916 may obtain a copy at the Reduced price of 60c.

This is a chance that will not be repeated. Hurry Up and Get Yours.

The Number is Limited.

Local and General

The new sidewalk towards the village school has at last been completed, and should fill one of the great requirements of the children this coming winter.

Our local school besides growing in efficiency is growing in numbers. There are a greater number of names on the registers than ever before. The efficiency is shown upon referring to another column, re the Olds Inspectorate School Fair, in which Crossfield students played such a prominent part.

A ratepayers meeting was held, or should say was to have been held in the Fire Hall, on Friday evening last, for the purpose of receiving nominations for the vacant seats on the village council. The Sec.-Treas. sat for two hours and two ratepayers was all that he could muster. Mr. E. H. Morrow and Dr. Whillans were nominated to fill the vacancies there by no other nominations these two gentlemen were elected to fill the vacancies to the end of the present year.

The next meeting of the Women's Institute will be held on Saturday afternoon, October 7th. It is hoped that there will be a large attendance.

On Friday evening last at the Union Church a social evening was held in connection with the Ladies' Aid. The audience was fairly large but we think that more would have been in attendance if they had only known what an excellent programme had been prepared. The programme consisted of songs by Mrs. Birch and Mr. McGee; violin solos by Mr. Sid Willis, recitations by Mr. and Mrs. Horricks and May Whitfield, piano forte solos by Miss Creighton, of Calgary; also a quartette by Dr. Whillans, Mr. and Mrs. Horricks and Mrs. Casey. Everything was well rendered and all present seemed well satisfied, if applause was anything to go by. The ladies afterwards served refreshments. Mr. Hubbs presided, and Miss Creighton and Miss Colling accompanied the vocalists.

Tim and Cuming, Crossfield Meat Market, are in the market for all kinds of Beef Cattle or Stockers. If you have anything to sell call and see us. Highest price paid.

APPRECIATION--An expression of appreciation for work well done is a duty we owe to humanity.

To say we are grateful for the kindly, efficient and patient services rendered us through the Post Office and Telephone by Chas. McKay and the one that gave to him her hand and heart in wedlock, as well as those of our axiomatically beloved Marie is putting it mildly.

Whatever their vicissitudes through life may be they can rest assured that in this Cross and field they have earned a gratitude that time and its variations will not efface.

It is true they are not perfect like Jones and I, but to the mothers that raise as good sons and daughters their names may not be written in history, but their acts will be registered in heaven. THOS. FITZGERALD

Mrs. H. W. Curry invites the ladies of Crossfield and district to inspect her new fall stock of Millinery. A large stock of the Latest Styles and Shades are now on display at very Moderate Prices. Hats made to order. Car fare refunded to all customers buying.

Mrs. H. W. CURRY,
Carstairs, Alberta.

The Crossfield Sewing Circle meets this week at the home of Mrs. Jose and next week with Mrs. Horricks.

Attention of the public generally is called to the shower for the benefit of the Ogden Home on Sept. 23rd. Gifts to be left at McRory's Store.

The annual meeting of the Red Cross Society will be held the first Friday in October. The election of officers will take place at that meeting. It is hoped that all the members of the society will make a special effort to be present.

The Patriotic Honor Roll

If an honor roll of those communities which have done best for the Patriotic Fund were to be established, the village of Erskine would surely merit a prominent place on it. With a population of somewhat less than 200, Erskine has contributed to the Patriotic Fund since the first of February the sum of \$768.50. It is perhaps not wise to make comparisons, as no doubt there are other places with similarly creditable showings, but if every locality responded as Erskine has done, there would no problem about raising the Patriotic Fund. How many communities will move over into the Erskine class when the big campaign starts shortly.

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS.

THE sole head of a family, or any male over 18 years old, may homestead a quarter-section available in the districts in Manitoba, Saskatchewan and Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any Dominion Lands Agency (but not at Sub-Agency), on certain conditions.

Duties.—Six months' residence and cultivation of the land in each of the three years following homestead within nine miles of his homestead on a farm of at least 50 acres, on certain conditions. A habitable house is required to be there residence, and the big campsite.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$5.00 per acre.

Duties.—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-empted patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead rights may take a purchased homestead on certain conditions. Price \$5.00 per acre. Duties.—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$500.00.

The area of cultivation is subject to reduction in case of rough, stony or scrubby land. Live stock may be substituted for cultivation on certain conditions.

W. W. GORE, G.M.G., Deputy of the Minister of the Interior, N.B.—Unauthorized publication of this advertisement will not be paid for.

WAR LOAN

DOMINION OF CANADA

Issue of \$100,000,000 5% Bonds Maturing 1st October, 1931.

PAYABLE AT PAR AT

OTTAWA, HALIFAX, ST. JOHN, CHARLOTTETOWN, MONTREAL, TORONTO, WINNIPEG, REGINA, CALGARY, VICTORIA.

INTEREST PAYABLE HALF-YEARLY, 1st APRIL, 1st OCTOBER.

PRINCIPAL AND INTEREST PAYABLE IN GOLD.

ISSUE PRICE 97½

A FULL HALF-YEAR'S INTEREST WILL BE PAID ON 1st APRIL, 1917.

THE PROCEEDS OF THE LOAN WILL BE USED FOR WAR PURPOSES ONLY.

THE MINISTER OF FINANCE offers herewith, on behalf of the Government, the above named Bonds for subscription at 97½, payable as follows:

10 per cent on application;
 30 " " 16th October, 1916;
 30 " " 15th November, 1916;
 27½ " " 15th December, 1916.

The total allotment of bonds of this issue will be limited to one hundred million dollars exclusive of the amount (if any) paid for by the surrender of bonds as the equivalent of cash under the terms of the War Loan prospectus of 22nd November, 1915.

The instalments may be paid in full on the 16th day of October, 1916, or on any instalment due date thereafter, under discount at the rate of four per cent per annum. All payments are to be made to a chartered bank for the credit of the Minister of Finance. Failure to pay any instalment when due will render previous payments liable to forfeiture and the allotment to cancellation.

Subscriptions, accompanied by a deposit of ten per cent of the amount subscribed, must be forwarded through the medium of a chartered bank. Any branch in Canada of any chartered bank will receive subscriptions and issue provisional receipts.

This loan is authorized under Act of the Parliament of Canada, and both principal and interest will be a charge upon the Consolidated Revenue Fund.

Forms of application may be obtained from any branch in Canada of any chartered bank and at the office of any Assistant Receiver General in Canada.

Subscriptions must be for even hundreds of dollars.

In case of partial allotments the surplus deposit will be applied towards payment of the amount due on the October instalment.

Script certificates, non-negotiable or payable to bearer in accordance with the choice of the applicant for registered or bearer bonds, will be issued, after allotment, in exchange for the provisional receipts.

When the script certificates have been paid in full and payment endorsed theron by the bank receiving the money, they may be exchanged for bonds, when prepared, with coupons attached, payable to bearer or registered as

to principal, or for fully registered bonds, when prepared, without coupons, in accordance with the application.

Delivery of scrip certificates and of bonds will be made through the chartered banks.

The issue will be exempt from taxes—including any income tax—imposed in pursuance of legislation enacted by the Parliament of Canada.

The bonds with coupons will be issued in denominations of \$100, \$500, \$1,000. Fully registered bonds without coupons will be issued in denominations of \$1,000, \$5,000 or any authorized multiple of \$5,000.

The bonds will be paid at maturity at par at the office of the Minister of Finance and Receiver General at Ottawa, or at the office of the Assistant Receiver General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary, or Victoria.

The interest on the fully registered bonds will be paid by cheque, which will be submitted by post. Interest on bonds with coupons will be paid on surrender of coupons. Both cheques and coupons will be payable free of exchange at any branch in Canada of any chartered bank.

Subject to the payment of twenty-five cents for each application, the Minister of Finance will allow to each applicant who has paid in full his allotment of bonds with coupons will have the right to convert into bonds of the denomination of \$1,000 with coupons, and holders of bonds with coupons will have the right to convert into fully registered bonds of authorized denominations without coupons at any time on application to the Minister of Finance.

The books of the loan will be kept at the Department of Finance, Ottawa.

Application will be made in due course for the listing of the issue on the Montreal and Toronto Stock Exchanges.

Recognized bond and stock brokers will be allowed a commission of one-quarter of one per cent on allotments made to individuals, and one-half of one per cent on allotments made to incorporated companies. No commission will be allowed in respect of the amount of any allotment paid for by the surrender of bonds issued under the War Loan prospectus of 22nd November, 1915. No commission will be allowed in respect of applications on forms which have not been printed by the King's Printer.

Subscription Lists will close on or before 23rd September, 1916.

DEPARTMENT OF FINANCE, OTTAWA, September 12th, 1916.

Boy Flyer is Army Pride

Young French Soldier May Rival Pegoud as an Aviator.

One of the marvels of this marvelous war is the way our soldiers have come out of the shell-shocked streets and the woman also—with such admiring wonder as the way the boys have taken to flying.

The French, who have an undoubted genius for flying, are a crowd of youngsters only just turned 21. The name is Guyenmet, and he is a sergeant, and may rival Garros and Pegoud, and nothing strikes the man in the ground.

But if kissing goes by merit only not by favor in France, he is likely to have a ripe pretty soon, apart, probably, from the fact that he has already brought down five enemy machines. The fifth came down in flames only a week or two since. He may have bagged another by this time.

He is decorated with the Cross of the Legion of Honor (the most coveted distinction in France), the Military Medal and the Croix de Guerre. Not bad for a sergeant.

But he nearly came a cropper recently. It was only his wonderful nerve which saved him. He was nine thousand feet up, and a single bullet had passed through his helmet, and he had brought down five enemy machines. The fifth came down in flames only a week or two since. He may have bagged another by this time.

He is decorated with the Cross of the Legion of Honor (the most coveted distinction in France), the Military Medal and the Croix de Guerre. Not bad for a sergeant.

But he nearly came a cropper recently. It was only his wonderful nerve which saved him. He was nine thousand feet up, and a single bullet had passed through his helmet, and he had brought down five enemy machines. The fifth came down in flames only a week or two since. He may have bagged another by this time.

He is decorated with the Cross of the Legion of Honor (the most coveted distinction in France), the Military Medal and the Croix de Guerre. Not bad for a sergeant.

The shock nearly turned him topsy-turvy and he fell. After dropping 1,500 feet, by a prodigious display of pluck and coolness he managed to recover his equilibrium and landed safely among his excited comrades, who were far more upset than he was.

That's the sort of young men that France and Britain are producing in platoons and regiments. They do something better even than flying when the war is over. Watch them! —Answers, London.

The Use of Feeds.

In a recent bulletin issued from the office of the Secretary of Agriculture the authors say that American farmers consider the cost of feeding a horse on a ration of grain and a few American farmers have a definite idea of the different nutrients which compose the feedstuffs or their uses.

American farmers have the best opportunities in the world to obtain information on all matters connected with the feeding of farm animals. They have the best Department of Agriculture in existence, and we have state experimental stations that are well equipped to help the farmer with local problems. Protection is afforded through feed-control laws that force manufacturers to tell what they are selling.

If the American feeder of livestock does not get results that the European does it is his own fault. He should not be able to get just as good results out of cottonseed as the Danish dairymen, yet the Dane buys out cottonseed meal and ships dairy products to his country to compete with our own. Of course he has the advantage of a cheaper labor, but he also makes a closer study of feeding. —The Country Gentleman.

Tommy's Needs in the Trenches.

A mass correspondence from British soldiers in the trenches is full of touches of human interest. One "Tommy" is solicitous about his appearance, and asks if he can't bear to hear that any day that drives him to tears. "I would like," he writes, "to enter it as I would go to church." —Sent in by a reader.

Another soldier shows how he pends some of his native anger. "I missed a mirror yesterday, not accidentally, but I found it by chance, and I must have got just as good results out of cottonseed as the Danish dairymen, yet the Dane buys out cottonseed meal and ships dairy products to his country to compete with our own. Of course he has the advantage of a cheaper labor, but he also makes a closer study of feeding. —The Country Gentleman.

J. H. wants a flute.

"I can play anything on it and the boys in the mess are always envious of music, they are tired of my whistling."

"A pack of cards" is the crying need of another lad, and a pathetic request from Harry, the latest. "There is a Saxonian here who imitates Harry to perfection, but we are dog gone tired of 'Stop Your Tickling Jock.'

Millions of Rifles Drive Their Bullets at Speeds of 2,000 to 3,000 feet per second.

Consequently they travel much faster than the bullet which has a speed of only 1,100 feet per second. If a soldier is hit he will probably hear the "vicious and menacing crash" of the arriving bullet before the rifle report is heard. —Photographer who sounds are described as "pock-punk." "The first is the 'bile', the second is the report of the arrival of the bullet, the third is the report of the bullet hitting the target, and the fourth is the report of the bullet hitting the target." —The New York Daily Telegram.

German Rifles Drive Their Bullets at Speeds of 2,000 to 3,000 feet per second.

Consequently they travel much faster than the bullet which has a speed of only 1,100 feet per second. If a soldier is hit he will probably hear the "vicious and menacing crash" of the arriving bullet before the rifle report is heard. —Photographer who sounds are described as "pock-punk." "The first is the 'bile', the second is the report of the arrival of the bullet, the third is the report of the bullet hitting the target, and the fourth is the report of the bullet hitting the target." —The New York Daily Telegram.

German state railways have on their payroll 36,000 women who are serving as conductors, switch tenders, platform guards, ticket collectors, telegraphists, train dispatchers, surfacewomen, and artisans in repair shops. The "Times" reports that the women are rendering entirely satisfactory service.

French Airman Flies Over Berlin

Drops Proclamation and Continues Journey into Russia.

Lieut. Joseph Marchal, of the French Aviation Corps, last month left French soil and flew over the German capital, upon which he completed his flight, intending to land within the Russian lines. He was forced to descend, however, in Poland and was taken prisoner by German officials.

The official communication given out telling of Aviator Marchal's achievement says: "On June 20, at 9:30 o'clock in the evening, Sub-Lieut. Marchal ascended at Nancy on board a Nieuport monoplane of a special type, taking with him a supply of fuel and water. His mission was to cross Germany at low altitude in order to drop proclamations on the capital at Berlin and then to descend to Russia."

"This audacious flight was accomplished, point by point, and after flying all night. Lieut. Marchal was compelled to descend at 8:30 a.m. the morning of June 21 near Chemin, Russian Poland, at least one hundred kilometers (62 miles) from the German lines. He was made prisoner."

"The proclamation which Lieut. Marchal dropped on Berlin was made with the words: 'We could bombard the open town of Berlin and kill all the German children but we are content to throw only the following proclamation,' etc. Lieut. Marchal was interned."

Marchal was interned at Salzenburg when forwarded to France on a postal card, giving these facts:

"I was made prisoner at eight o'clock on the morning of the 21st at Chemin. I did not tell the German who had accomplished my task, but the pilot later arrived, and they were obliged to bow to the reality."

"It was the failure of the spark plug which caused me to land and to charge the motor again, and at the moment I was taken prisoner. You may judge of my chagrin."

Marchal was interned at Salzenburg when forwarded to France on a postal card, giving these facts:

Story of Two Alberta Boys

First Canadian Recruits for the Flying Service Were From Calgary.

The Hon. A. L. Sifton, Premier of Alberta, who has been visiting England with his wife and family, has given authority for the statement that two Alberta boys were the pioneers from Canada in joining the Imperial Flying Corps. Captain W. H. T. Lieut. Jack Turner-Bone and Lieut. Spencer Kerby, both of Calgary, "And," he remarks, "the Premier, what a natural fascination there is in the breaking of new ground in any field." Within a week or two after these young Albertans had come forward, Captain Kerby, for whom flying service had become quite an old story, but they made quite a name for themselves, and the story, as told by Premier Sifton, in the London Canadian Gazette, is interesting. The interview took place in the Alberta Government's office, the windows of which overlook Trafalgar Square—the very centre of the universe to Albertans—and Mr. Reid, the Agent-General, who also knew the two young aviators, supplied details whenever the Premier passed, and added words of praise for the courage and enterprise of these Western boys.

Turner-Bone, the son of a well-known Calgary engineer, and Spencer Kerby, the son of a prominent preacher in the same city, were great friends as boys. What one did, the other had to do.

"They were like David and Jonathan," says Mr. Reid.

On leaving school, they decided to go in for engineering. Turner-Bone went to Montreal and Kerby to Toronto. Then came the war. Before the war, and when the war started they were both in the Calgary following up the practical side of their scientific studies in a mining school there. The machine shop lost its attractions as soon as Canada admitted herself to the great war, and the Calgary boys decided at once to join the flying service "somehow," and as there wasn't one in Canada, they were advised that if they came over here ("including expenses," commented Premier Sifton), they could get into the R.N.A.S. Recruits were soon made to the authorities here that they could go to Canada for this purpose, and their papers were found to justify their claim, and so they were given a place in the service, and by extension to the Dardanelles for patrol duty. Turner-Bone to Dunkirk.

"I shall go," he said, "rendered by the Premier, almost the same announcement made by the Admiralty, in connection with the Red of Honor, was the name of young Turner-Bone, whose body was found in the sea off Dunkirk. But he had done good work and died at his post.

"He was a hero," said Mr. Reid, "so over-worked because of the continuous Gallipoli, and of an insufficient number of pilots, 'that his health broke down entirely,' said Premier Sifton, 'he was believed to have been killed in the sea off Dunkirk.'

But these splendid young men, who had been over there twenty when they came over—had blazed the air trail for Canada, which had been hewn wide, and their names will never be forgotten in the Province of Alberta. Moreover, the one who is left will soon be 'fit' again, it is hoped, helped by the invigorating air of Alberta. Alberta, we sincerely hope, will not be able to get her share of the Fokkers and all their practical clan.

No Compromise Possible

This is a life and death struggle between two conceptions of right and wrong which are fundamentally incompatible. One or other must conquer.

It is as impossible for the Allies to compromise as it was for the United States to compromise with secessionists over this struggle for war.

It is a fight for their all—for righteousness, for freedom, for honor, as well as for their greatness and their security. Theirs is a determined fight that it shall be a decisive fight. On no account will they expose their children to the risks of fighting again.

They want to see Europe forever from the standing menace of German domination. They feel that they must conquer, for, in their opinion, they must overthrow Napoleon. (From the London Times.)

It is odd that the first German fleet was bought for the most part, second-hand from the British navy.

Among the earliest vessels obtained were the fifth and sixth frigates, the Rover, the Mosquito, the Nioche and the Renown. The last two named are still in use, the Nioche as a training ship, the Rover, now known as a gunnery ship at Wilhelmshaven. Until comparatively recent years it was customary for Prussian officers to receive their training in the British navy. Even the Kaiser gained his first experience in seafaring on a vessel presented by the British sailor King William IV.

Little Willie came to his mother with the following query: "Mother, what would you do if some one broke the large vase in the parlor?"

"I would wish him," responded mother.

After a few seconds elapsed, Willie, with a broad grin, said: "Well, you better get ready. Papa broke it."—New York Times.

Kaiser Must Not Court Danger

"It Is the Most Piquant Grief of My Life." He Said.

Emperor William during his recent trip to a point somewhere in the rear of Peronne, on the Somme, front, made a speech to the German wounded, a speech which attracted great attention in Germany. The German Emperor is quoted as saying:

"It is the most poignant grief of my life to be unable to take a more active part in this war. It is my earnest desire to take my place in the trenches and deal such blows as the war as my age and strength would permit."

"I could take my place with the youngest of you, and I promise that the German army will be the enemy. But the insatiable Almire will be willed otherwise. Into my hands has been committed by Divine destiny, the leadership of our country, its forces and its forces on land and sea."

"The burden of thinking, and deciding, and being burdened upon me, and realising that I have to let my life must not be risked in the foremost line of battle, where my feeling, if unrestrained, would carry me swiftly."

"My life must be conserved carefully for the welfare of Germany in order to carry out the duties assigned to me by Divine appointment."

Tobacco for Soldiers

Richard Harding Davis Recognized the Benefit of Supplying Tommies With Smokes

Among the paper's left by Richard Harding Davis, the brilliant American War correspondent and author, his brother discovered the following message, written apparently a few days previous to his death:

"Men smoke as freely as they breathe air. No one ship will be able to supply all the tobacco to the men in the trenches, or rather have much to do with it in

time. During the Spanish-American War, in the U.S. Army regulations, tobacco was officially classified as 'Artillery Supplies.'"

"When I cabled from Cuba to my soldiers in Cuba needed tobacco, my men who ride in the ships, and if our men did not also wear silk pajamas and eu-de-cologne. The man who had never gone without tobacco, I fear, will not be fit for his pouch or case at the street corner, still thought."

"It is a fact that the tobacco smoke as freely as they breathe air cannot know how much tobacco means to the men in the trenches, or rather have much to do with it in

time. During the Spanish-American War, in the U.S. Army regulations, tobacco was officially classified as 'Artillery Supplies.'"

"When I cabled from Cuba to my

Teachers' Convention at Olds

On Thursday and Friday, the 14th and 15th, the Olds Inspectorate Teachers' Association held their third annual Convention at Olds. The convention was made to coincide with the Home Garden Fair, which was held on Saturday, the 10th, under the auspices of the Agricultural School, who also gave the Association the use of their building. The programme for what proved to be the best convention yet held in the Inspectorate was remarkable for the opportunity it gave the teachers to learn and to improve their own.

Under the direction of Inspector Aylesworth, the executive had arranged for a series of demonstration lessons, which were a great success, not only as object lessons of their particular kind, but also as an inspiration to better teaching and better methods. After registration on Thursday morning the Rev. G. Armstrong of Olds, opened the convention by conducting the invocation, which was followed with "O, Canada," sung by the sixty-five teachers present. The business of the convention was then proceeded with under the presidency of J. H. Main of Innisfail. The business of the convention was devoted to a new department which proved to be as successful as it was interesting. Miss A. Shearer, of Olds, conducted for one hour a model rural school, consisting of Grades I, III, V and VII. Miss Shearer demonstrated that with a properly organized time table and proper management the average rural school can be conducted so as to comply both with the letter and spirit of educational requirements. A striking point in the lesson was the effect of personality on discipline. Principal McNally

of the Camrose Normal, followed with an address on "The Effective Curriculum for Rural Schools." While Mr. McNally's opinions were on the whole fully concurred in some of his suggestions were evidently regarded as dangerous heresies and were the subject of lively debate. The speakers left many important questions open for consideration for the session to come.

Mr. Aylesworth closed the session with a series of instructions in regard to the conduct of schools and work of the teachers.

In the evening the association went in

to the Opera House to see pictures

"Britain Prepared!" During the intermission Master William Grant, a child of about five years of age, rendered a Scotch song, this was followed by an inspiring address by Mr. Smith, M.L.A., for Camrose, on "Patriotism."

After the invocation on Friday morning which was conducted by the Rev. A. D. Ritchie, Principal McNally gave an address on "Recent Educational Literature," with suggestions for private reading, and he generously placed use of his library to those who wished to follow his suggestions.

Miss Walsh, of Bowden, followed with a demonstration of the work done in Grade III, and this in turn was followed by a Primary reading lesson in Grade I, conducted by Miss Geener, of Crossfield, both teachers brought their own grades for the purpose of the lessons, the great excellence of which was amply testified to by the remarks afterwards overheard among the teachers.

The last hour of session was taken up by lessons in Indian Basketry and Working Drawings under the supervision of Mr. A. E. Hutton of the Calgary Normal and Mr.

CROSSFIELD, ALTA., SEPT. 22, 1916

Hall of the School of Agriculture.

The teachers themselves formed the classes for these lessons. W. J. Elliott, B.S.A., of the School of Agriculture, opened the afternoon session with a demonstration of working in slate and wood.

The lesson which was very fully attended proved to be a revelation in methods, and was of the utmost value to those who saw it.

Miss Lantz, B.A., and Miss J. Topp, conducted the last lesson of the session, the former in Pastel Work and the latter in Water Colors. The teachers again formed the classes and received practical instruction in the work undertaken. The last item on the programme was the conduct of business.

After considerable discussion it was decided to hold the next convention at Innisfail on the Thursday and Friday evenings of the second week in October.

The following offices were elected for the ensuing year: Hon. J. B. Boyle, K.C., Hon. President; F. L. Aylesworth, B.A., Hon. Vice-Pres.; E. H. Morrow, Crossfield, President; J. H. Main, M.A., Innisfail, Sec.-Treasurer.

Executive Committee: Misses Lantz, Sexsmith, Topp, King, Stewart, Sandford, Mrs. Reed, Messrs. Marshall, Hitchcock, Shane, Grant, Tamer, Tolomy and Cameron.

On Friday evening the Public Speaking Contest for town and rural schools was held in the Methodist Church, the retiring president, Main, occupied the chair and introduced the speaker of the evening, Dr. M. Clark, who gave an address on "Public Speaking."

Mr. A. R. Thomas, chairman of the Crossfield board of trustees, spoke briefly on the benefits accruing to the community from the convention. He extended a hearty invitation to the association to visit Crossfield in the early future. After the contest a reception for the teachers was held in the Assembly Hall in the Agricultural Hall by the Ladies' Council of Olds, who provided the refreshments, while the school provided the music.

The success of the convention is largely due to the untiring efforts of Inspector Aylesworth, who, in addition, offered Mr. Aylesworth and Mr. Main, the Inspectorate to be congratulated on the enthusiasm shown by the Association, which hopes to greatly extend its activities during the coming year. The most encouraging feature was the large attendance of visitors during the convention from neighboring centres.

The awards for exhibition for school fair were as follows: Public speaking contest, town schools, \$10 gold piece donated by Lieut. J. Stauffer, M.L.A., won by Miss Evelyn Lamondre, of Crossfield school; \$5 gold piece donated by Didsbury school board, won by Ivan Casey, of Didsbury school; \$10 gold piece donated by the Hon. Duncan Marshall, won by Miss Verna Carter of Hainstock; \$5 gold piece donated by Dr. Kenny, Mayor of Olds, won by Miss V. McCullum of Bennett.

Writing, Rural schools, primary grades, Little Red Deer, Grades above III, Lone Pine. Graded schools of three teachers and less, Crossfield. Graded schools of more than three teachers, Innisfail, High Schools, Olds.

George Downing, " "

R. E. Bishop, " "

John McRae, " "

Mr. Smoker
a Word Please

We are asked to start a Subscription list at our office for the purpose of raising funds to purchase tobacco for the Canadian soldiers at the front who are greatly in need of it.

The money will be sent to the Calgary Herald Tobacco Fund, and the names of those donating will be published in both The Chronicle and the Calgary Herald and a post card addressed to you is enclosed in every 25¢ package you subscribe for, which enables the happy soldier who receives your gift to write and thank you personally when he can do so.

More than 25,000 packages have already been sent through this fund but the work is only just beginning and more assistance is needed.

Just think of the pleasure it will be to some fellow in the trenches without the wherewithal to get a smoke, and no chance to buy it, and someone comes along and hands him a neat little packet of tobacco.

Subscription list at the Chronicle office. Come in and put down a quarter, you'll enjoy your next smoke better after doing it.

SUBSCRIPTIONS:

Mrs. J. Robertson, Abergavenny Ranch \$1
Mr. A. A. Hall, Crossfield 25c
M. Thomas, 25c
J. H. Havens, Sampsonton 50c
G. Trevor Jones \$2.50
